- Future of work
- AI
- Culture
- Employee experience
- Leadership

TOPIC DESCRIPTION

Josh Drean offers thought-provoking keynotes that delve into the future of work and how emerging technologies will shape our careers and workplace environments. From exploring the transformative power of the Metaverse and Web3 in "EMPLOYMENT IS DEAD" to enhancing human potential with AI in "THE ERA OF HUMAN+," Josh provides practical insights and actionable strategies to help organizations adapt and thrive in this rapidly evolving landscape. His sessions also include exploring decentralized work and employee experience design, offering leaders the tools to build more human, digital workplaces that empower teams.
